

JOB DESCRIPTION: MECHANICAL DESIGN ENGINEER

At PRO Stainless, we have brought together the expertise, the team, the craftsmanship and the facilities, to deliver the most challenging of stainless steel projects. Since 2001, we have been developing innovative high-end solutions for cleanrooms & hygienic environments, architectural metalwork purposes and production & manufacturing sites across Ireland, the UK and internationally.

Title:

Mechanical Design Engineer

Location:

Ireland

Reporting to:

Design Manager

Job type:

Full-time

Job Summary: The key focus of this role is to ensure that all project designs and associated documentation are produced to the highest standards. To ensure product quality, attention to detail, mitigation of costs, on time delivery and optimum customer satisfaction. The successful candidate will be able to calmly manage multiple tasks under pressure and be able to prioritise these quickly and effectively. Participation to improve product quality, cost and lead time is an integral part of this remit.

Qualifications and Skills required:

- 3-5 years' experience in a similar environment specialising in metal fabrication design and/or non-structural architectural metalwork is essential.
- Broad mechanical design engineering capabilities.
- Proficiency in AutoCAD.
- Strong project management skills with the ability to interpret surveys, design products and produce approval/fabrication and installation drawings.

PRO/STAINLESS

- The ability to communicate clearly and articulately across all internal and external multidisciplinary teams (production, quality, site staff, architects, contractors, suppliers and end users).

Advantage Skills:

- Practical working knowledge of 3D Inventor or Advanced Steel and other 3D modelling packages would also be an advantage.
- Knowledge of utility panels and transfer panels for the pharmaceutical industry would be an advantage but not a requirement.

Benefits:

- Further training and education are encouraged and supported
- Flexible working
- Travel allowance
- On site parking
